SUMMARY

A frontend developer with a flair to implement the visuals into real time by formulating the responsive UI designs to make user experience seamless additionally, having the good grip on the core concepts related to the field of computer science and engineering.

TECHNICAL SKILLS

Programming languages:

C, C++, JAVA, PYTHON.

Web Technologies:

HTML, CSS, Bootstrap

JavaScript, REACT JS, Node JS

Data Management:

MySQL, MongoDB.

CERTIFICATIONS

- React JS Development | Celebal Technology | Jul '23
- Front end Development | Board Infinity | Dec '21
- CPP Fundamentals| Coding Blocks | Sept '22

POWER SKILLS

Comfortable working in a team of known individuals

Values imaginative and Innovation

Empathetic and helpful in nature

Works independently in a Structred manner.

HACKATHONS

- Code-A-Thon by programmingpathshala Feb '23
- Participated in Microsoft Engage Apr '22

INTERNSHIP AND TRAINING

React.js Development Intern

May '23 - Jul '23

Celebal Technologies | Remote

- Collaborated remotely with a dynamic team of developers on a challenging project to create a responsive and user-friendly blog website using React.js.
- Successfully integrated user authentication using Firebase, ensuring data security and personalized user experiences.
- Successfully completed the project within a tight two-month timeline, showcasing strong time management and problem-solving skills.

Front End Development

Jun '22 - Jul '22

Board Infinity | Online

- Completed Summer training in front-end development by Board Infinity. My summer training experience has given me the opportunity to apply these skills and develop mini projects, such as BMI Calculator and Image Gallery in React JS and Product Page Using HTML CSS and Bootstrap

PROJECTS

Blog-Website:

Jul'23

- Designed and developed a dynamic blog website using React.js, offering visitors an engaging platform to access and interact with diverse content seamlessly.
- Implemented dynamic content loading for efficient navigation and enhanced user experience, showcasing the ability to optimize page performance.
- Utilized React.js components to create an intuitive user interface, enabling straightforward exploration of articles and user-friendly interactions.
- Tech Stack: HTML, CSS, JAVASCRIPT, REACT JS, NODE JS, MONGODB

E-commerce:

Aug'22

- A React application used to buy products from the Site to fulfill a prescription, the website includes a dynamic experience where consumers can easily find what they're looking for and make the purchase.
- This project uses fake store API to show the products.
- Tech Stack: HTML, CSS, JAVASCRIPT, REACT JS

ACHIEVEMENTS

- 5 Star Rating in CPP Programming on HackerRank
- 2 Star Rating in Problem Solving on HackerRank

EDUCATION

B.Tech. in Computer Science

Aug '20 - Present

Lovely Professional University | Phagwara, IN

CGPA 7.6

Intermediate

Jun '18 - Mar '20

SR Junior College | Karimnagar, IN

CGPA 9.7

Secondary School

Jun '17 - Mar '18

Bhagavathi School | Karimnagar, N

CGPA 9.5
